Firelands Scientific

Who We Are

At Firelands Scientific, we have one goal: To provide patients with the highest quality, naturally sungrown medicine. Our Firelands' Phoenix emblem is an inspiration of our local history in North West Ohio. We seek to "Uplift Others™" by offering high-quality, natural alternatives to traditional pharmaceutical drugs, and also by making a positive impact in our communities, the environment, and our patients' lives every day.

Contact / Return Policy

While we can correct the experience, we want you to feel empowered to accept returns. We aim for 100% satisfaction - you can return with confidence knowing that we will credit you!

If unable to resolve, have the patient email us at CustomerService@FirelandsScientific.com with the following information:

- · Picture of the receipt
- Photo of compliance label on packaging
- Photo of the device/product, and
- Preferred phone number and time we can contact the patient

We are also available via phone at (419-616-5115).

Processed Product Line

THC Rich

CBD Rich

• THC Rich means that 75% or more of total cannabinoids are THC (1:4 and higher). These products are dominant in delta-9-tetrahydrocannabinol, or THC.

• CBD Rich means that 75% or more of total cannabinoids are CBD (4:1 and higher). These products are dominant in cannabidiol, or CBD. (Note: CBD Rich products may still contain THC.)

• Mixed Ratio means that THC and CBD are balanced in close range. We most often offer these products as a 1:1 formulation.

Cannabis Tincture (Mint, Citrus & Unflavored)

- Broad Spectrum, alcohol-based for faster absorption
- For sublingual (under the tongue) use only
- Offered in 3 formulations
- Precise dosing with graduated dropper

Solventless Concentrates – Live Rosin

- Full Spectrum, cultivar-specific strains
- Just the plant's natural compounds no chemical solvents used
- For use with state-approved vaporization devices only

Cannabis Oil Syringe

- Broad Spectrum, CO2-extracted, cultivar-specific
- Simply cannabinoids and terpenes no fillers or cutting agents
- Etched graduation for better usage tracking with steel plunger for ease of dispensing
- Needle applicator included for refilling FS all-in-one concentrated vape cartridge
- For use with state-approved vaporization devices only

What Makes Us Unique

- First medical cannabis sale in Ohio
- First Solventless cannabis products to be introduced in Ohio a cleaner, full-spectrum concentrate
- First to bring standalone cartridge with battery device to market
- Environmental stewardship:

• Leverage the only full glass cannabis greenhouse in Ohio designed with fully automated environmental control systems that collect more than 1,000 data points every 30 seconds, including a rooftop weather system to forecast rain and cloud cover and greenhouse conditions for our growers, which helps us track trends and make energy decisions

• Closed-loop irrigation system designed to treat and recirculate water without run-off

• To date, we have redirected over 147 tons (and counting!) of green waste to a local partner to be composted rather than going to a landfill

All-in-One Concentrated Vape Cartridge

- Broad Spectrum, CO2-extracted, cultivar-specific
- Simply cannabinoids and terpenes no fillers or cutting agents
- Sleek, breath-activated device with micro-USB charger included
- Removeable mouthpiece for refills with FS Cannabis Oil Syringe

CO2 Concentrated Vape Cartridge

- Broad Spectrum, CO2-extracted, cultivar-specific
- Simply cannabinoids and terpenes no fillers or cutting agents
- Proprietary magnetic adapter designed for use with FS Phoenix NEST battery
- NEST battery uniquely designed for Solventless Hash Oil vaporization

SHO Concentrated Vape Cartridge

- Full Spectrum, solventless extracted hash oil
- Just the plant's natural compounds no chemical solvents used
- Proprietary magnetic adapter designed for use with FS Phoenix NEST battery
- NEST battery uniquely designed for Solventless Hash Oil vaporization

Phoenix NEST Battery

- Breath activated with haptic feedback for intuitive use
- Smart Pulse[™] technology prevents overheating and ensures consistent flavor
- Carburetor hole on side to control airflow
