FIRELANDS SCIENTIFIC

Here at Firelands Scientific, our mission is to “uplift our patients and customers with high-quality, sustainably produced medicine and wellness products.” More broadly, our vision of what is possible as a company is to “harness the power of plants and sustainable business practices as a force for good in the World.” Achieving our mission and pursuing that lofty vision takes form in many different ways, and how we choose our partners and suppliers is central to these efforts. We look first to our stakeholder network and the great local businesses all around us, finding ways to “uplift others” by sourcing the best locally made and sustainable products and enhancing them with our medicine. We then carefully vet our partners based on a number of criteria (in particular, their environmental and social impact) to identify those with whom we share a common vision and where a collaboration would further each company’s respective missions. That’s why we couldn’t be more proud to announce our collaboration with Chagrin Valley Soap & Salve Company and the launch of our new topical salve line!

CHAGRIN VALLEY SOAP & SALVE COMPANY

Chagrin Valley Soap & Salve is a family-owned and operated company located in Solon, Ohio, a suburb of Cleveland. The Company began in 2001 as a hobby born out of a concern about the synthetic ingredients in skin care products and the adverse effects of these ingredients on our skin, our children and our planet.

The Chagrin Valley Soap & Salve & Company has established itself as one of the leaders in the natural, organic personal care industry by crafting high-quality, skin and hair care products made with ingredients that are USDA Certified Organic, sustainably produced, cruelty-free and ethically traded.

With over 300 personal care products, the company has expanded distribution across the entire United States and more than 100 countries worldwide.

The success of The Chagrin Valley Soap & Salve Company is the result of its adherence to its mission by:

- Creating unique formulations blended in-house in small batches in order to maintain consistency and freshness
- Using only Natural and Organic ingredients--nothing artificial or synthetic, no GMO’s, just wholesome ingredients you can trust
- Maintaining USDA Organic Certification that requires yearly renewal
- Practicing environmental stewardship
- Utilizing raw materials that are sourced in an environmentally and ethically responsible manner
- Using palm oil that is Rainforest Alliance Certified
- Maintaining Leaping-Bunny, Certified Cruelty-Free, certification
- Creating products that are biodegradable and minimally packaged with recycled and recyclable materials
- Harnessing the Power and Simplicity of Nature® to promote healthy skin, healthy people and a healthy planet
