Firelands Scientific

Who We Are

At Firelands Scientific, we have one goal: To provide patients with the highest quality, naturally sungrown medicine. Our Firelands' Phoenix emblem is an inspiration of our local history in North West Ohio. We seek to "Uplift Others™" by offering high-quality, natural alternatives to traditional pharmaceutical drugs, and also by making a positive impact in our communities, the environment, and our patients' lives every day.

Contact / Return Policy

While we can correct the experience, we want you to feel empowered to accept returns. We aim for 100% satisfaction - you can return with confidence knowing that we will credit you!

If unable to resolve, have the patient email us at CustomerService@FirelandsScientific.com with the following information:

- Picture of the receipt
- Photo of compliance label on packaging
- Photo of the device/product, and
- Preferred phone number and time we can contact the patient

We are also available via phone at (419-616-5115).

What Makes Us Unique

- First medical cannabis sale in Ohio
- First Solventless cannabis products to be introduced in Ohio – a cleaner, full-spectrum concentrate
- First to bring standalone cartridge with battery device to market
- Environmental stewardship:
 - Leverage the only full glass cannabis greenhouse in Ohio designed with fully automated environmental control systems that collect more than 1,000 data points every 30 seconds, including a rooftop weather system to forecast rain and cloud cover and greenhouse conditions for our growers, which helps us track trends and make energy decisions
 - Closed-loop irrigation system designed to treat and recirculate water without run-off
 - To date, we have redirected over 147 tons (and counting!) of green waste to a local partner to be composted rather than going to a landfill

Processed Product Line

THC Rich

Mixed Ratio
(CBD : THC)

CBD Rich

- **THC Rich** means that 75% or more of total cannabinoids are THC (1:4 and higher). These products are dominant in delta-9-tetrahydrocannabinol, or THC.

- **CBD Rich** means that 75% or more of total cannabinoids are CBD (4:1 and higher). These products are dominant in cannabidiol, or CBD. (Note: CBD Rich products may still contain THC.)

- **Mixed Ratio** means that THC and CBD are balanced in close range. We most often offer these products as a 1:1 formulation.

Cannabis Tincture (Mint, Citrus & Unflavored)

- Broad Spectrum, alcohol-based for faster absorption
- For sublingual (under the tongue) use only
- Offered in 3 formulations
- Precise dosing with graduated dropper
